Xerox® Instant Print Kiosk

Capture revenue from the document services people already need.
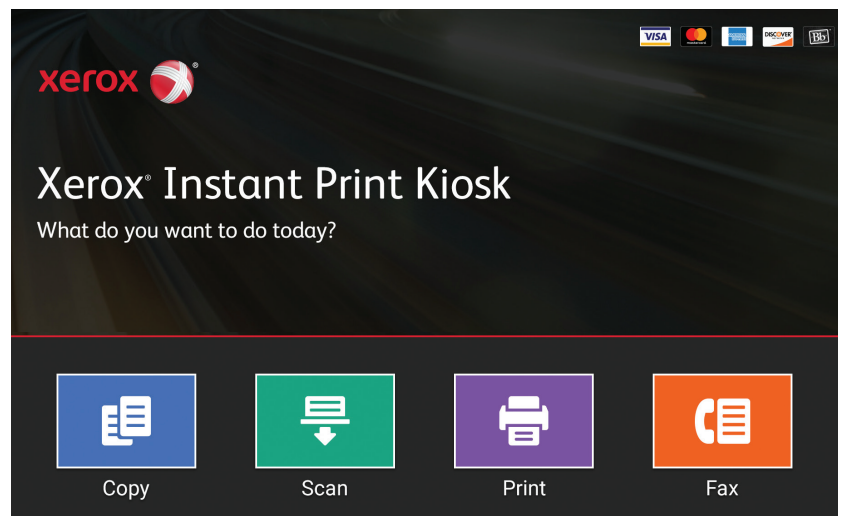

A better, more profitable self-serve document processing solution.

Almost any secure site with regular foot traffic — retail locations, libraries, colleges and universities, residential communities, hotels, airports and more — can generate a substantial new source of revenue with the Xerox® Instant Print Kiosk. It's the self-serve kiosk that lets walk-up users print, scan, copy and fax most documents, in virtually any format, quickly and hassle-free.

Fast productivity, easy for everyone.

Unlike traditional coin-op printing and copying solutions, the Xerox® Instant Print Kiosk delivers the self-serve document processing capabilities today's fast-paced users demand: unparalleled ease-of-use, complete compatibility with common mobile printing applications, on-demand access to DropBox™, Google Drive™, SharePoint™, OneDrive™ and EFI™ PrintMe® cloud locations, and flexible card-based payment options, including Blackboard and cbord student cards.

With superior performance across all functions, the Xerox® Instant Print Kiosk keeps walk-up users' jobs moving quickly and hassle-free, which means more revenue for kiosk owners.

The home screen on the Xerox® Instant Print Kiosk's 10.1-inch touchscreen provides four simple choices, each of which guides users through intuitive, step-by-step instructions to quickly complete their jobs. It's so easy, on-site assistance should rarely be required of your support staff.

1 Powerful multifunction capabilities with printing as fast as 55 pages per minute for black-and-white and 50 pages per minute for color. Plus, exceptional color print quality at up to 1200 x 2400 dpi.

2 Dual-head, single-pass scanner simultaneously scans both sides of two-sided documents at up to 133 impressions per minute and up to 600 x 600 dpi.

3 10.1" color touchscreen user interface features bright, easy-to-understand icons for copy, print, scan and fax functions. Plus, Print Preview lets users confirm the accuracy of their print jobs before completion.

4 The included payment card reader integrates FreedomPay and EFI™ Self-Serve AdminCentral pricing, reporting and secure payment system.

5 XMediusFAX® cloud fax service enables fast, secure faxing with no analog phone line required.

6 USB thumb drive port for print-from and scan-to capability.

7 Front door for securing consumables.

8 Office Finisher LX provides more output options, including 2,000-sheet stacking; 50-sheet, 2-position stapling; optional hole punch.

Xerox® Instant Print Kiosk with EFI™ Self-Serve AdminCentral

EFI™ Self-Serve AdminCentral, a cloud-based management portal, enables central control of any number of Instant Print Kiosks — wherever they're located — and manages payment-card authorization services for all devices with the included FreedomPay card reader. It enables secure credit card payment supporting EMV® with the latest chip authorization and PCI Point-to-Point Encryption (P2PE)™, as well as cash card payment and integration with campus card and billing systems. From anywhere with a web browser, AdminCentral allows an administrator to monitor and manage transactions and provides a convenient portal for configuring and maintaining the system.
